3D ANIMATION COURSE (FULL-TIME)
This program consists of a balanced combina-
tion of hands-on classes, exercises, lab time,
individual and group projects; with a structure
that emphasizes practical production skills and
techniques and allows generous
individual lab time for personal portfolio pro-
duction.

A range of part-time courses are also available.

dMACS

Digital Magazine Advertising Canadian Specifications

Magazines Canada is a not-for-profit organization supporting the Canadian consumer magazine industry.

If you're responsible for the preparation, delivery, imaging or printing of digital ads for publications, you'll want to check this out.

We're developing new Canadian standards for the preparation and transmission of advertising materials. These specs will deal with such issues as colour management, digital proofing and preflight, while providing you with a comprehensive guide to preparing files that meet industry expectations.

Get into the mix!

You'll find yourself in very good company. Check out the **dMACS Initiative website** for details on the program and see who's already involved... (www.dMACS.org)
